Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS

- I need simple explanations for difficult topics.
- I want quick and accurate answers.
- I need help preparing for exams.

THINKS

- Learning should be easy and interactive.
- AI can help me understand concepts faster.
- I want a platform that saves my study time.

DOES

- Searches for study materials online.
- Uses Edu Genie to ask questions and generate quizzes.
- Reviews summaries before exams.

FEELS

- Confused when topics are difficult.
- Happy when concepts are explained clearly.
- Confident after practicing quizzes and getting AI guidance.
